### **About MGX Minerals**

MGX Minerals ([CSE: XMG](#)) is a diversified Canadian mining company listed on the Canadian Securities Exchange. MGX is engaged in the acquisition and development of industrial mineral deposits in western Canada that offer near-term production potential, minimal barriers to entry and low initial capital expenditures.

The Company's flagship project is the [Driftwood Creek magnesium project](#) in the East Kootenay region of British Columbia. The long-term strategic business objectives of the Company include constructing a quarry mine and processing plant to produce magnesium oxide at Driftwood Creek. The Driftwood Creek project is currently under permitting review for granting of a mining lease and applications for associated operating permits are in various stages of preparation. MGX owns the majority of significant magnesite properties in the Province of British Columbia as reported by the British Columbia Geological Service.
